GitHub: https://github.com/mohitchauhan21 Mobile: +91 - 8837602051

SKILLS

Languages: Python, Java, JavaScript, SQL, HTML5, CSS3
Frameworks: React.js, Next.js, Tailwind CSS, Node.js, Flask
Tools/Platforms: OpenAI, Gemini API, Hugging Face, MongoDB, PostgreSQL, Git, GitHub
Soft Skills: Problem-Solving, Communication, Team Collaboration, Adaptability

PROJECTS

EcoTrack – Corporate Carbon Emissions Tracking Platform | GitHub — Jul' 2026

- Implemented a full-stack platform enabling companies to track, analyze, and reduce their carbon footprint.
- Strengthened data security by enforcing 3-tier role-based access across 15+ REST API endpoints.
- Automated CO_2e calculations across 400+ logs, reducing manual data-processing effort by ~45%.
- Streamlined CSV uploads and Excel exports, reducing reporting time by ~65% versus manual workflows.
- Elevated decision-making speed with real-time Recharts dashboards tracking department-wise trends.
- Tech used – React 19, TypeScript, Express.js, MongoDB, JWT, Recharts

SciBot – AI Science Experiment Recommender | GitHub — Apr' 2026

- Built an AI-powered web app that recommends and explains hands-on science experiments.
- Integrated Groq's llama-3.3-70b model to stream personalized chatbot responses in real time.
- Personalized learning across 4 grade levels and 3 subjects, improving content relevance by ~35%.
- Created an Ingredient Lab feature generating 4 custom experiment ideas from household materials.
- Enriched learning with experiment guides and safety notes, reducing preparation time by ~30%.
- Tech used – Python, Flask, Groq API, JavaScript, HTML5, CSS3

MedRemind – Full-Stack Healthcare & Medication Platform | GitHub — Mar' 2026

- Unified patient, caregiver, doctor, and admin workflows into one role-based healthcare platform.
- Orchestrated a real-time alert scheduler, polling every 30 seconds with automatic 10-minute snoozing.
- Introduced automated risk scoring for doctors, flagging patients below 60% adherence across 3 tiers.
- Safeguarded patient data with JWT authentication, bcrypt hashing, and strict role-based access control.
- Delivered 30-day adherence insights and CSV exports, simplifying patient progress tracking by ~40%.
- Tech used – Node.js, Express.js, MongoDB, JWT, Chart.js, Tailwind CSS

TRAINING

CIPHERSCHOOLS | Full-Stack Development | Certificate — Aug' 2026

- Developed full-stack development skills through hands-on training, improving overall efficiency by 40%.
- Enhanced frontend and backend development skills, resulting in a 45% gain in application development.
- Boosted practical development skills through end-to-end workflows, resulting in a 50% gain in confidence.
- Improved debugging and problem-solving skills through practical tasks, resulting in a 35% gain in efficiency.

CERTIFICATES

- Oracle Data Platform 2025 Certified Foundations Associate | Oracle — Apr' 2026
- Intro to SQL | Kaggle — Mar' 2026
- Build Generative AI Apps and Solutions with No-Code Tools | Infosys — Aug' 2025
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Infosys — Aug' 2025

ACHIEVEMENTS

- Solved 150+ data structures and algorithms problems on LeetCode, strengthening problem-solving speed. — Since Aug' 2024 - Present
- Secured Top Performer position in the Tech Synergy coding contest by Cipher Schools among competing participants. — Jul' 2026

EDUCATION

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 9.01 — Aug' 2024 – Present

Govt. Senior Secondary Smart School — Sri Muktsar Sahib, Punjab
Intermediate; Percentage: 90.2% — Apr' 2022 – May' 2023
